

Bag slitter for granular and free flowing products

Delaere, Deerlijk, Belgium, specialising in advanced bulk weighing and filling systems, has extended its product portfolio with the introduction of a high-capacity bag slitter. The patent-pending unit can be easily operated by just one person (for example, a forklift driver) and can discharge up to 1200 bags/h. It can be installed either indoors or outdoors and can be easily integrated into existing production processes including truck loading or pneumatic conveying systems. www.delaere.com
