

## ***Elfab opens office in Poland***

Elfab, North Shields, UK, specialising in manufacture of rupture discs, busting panels and associated detection devices, has set up an office in Warsaw to satisfy increasing demand from Eastern European markets. From here support will be provided for customers in the Czech Republic, Romania, Bulgaria, Slovakia, Slovenia, Bosnia, Croatia, Serbia, Montenegro, Albania, Estonia, Latvia and Lithuania as well as in Poland. Services provided will include technical consultations, general after-sales care, technical training programmes tailored to individual project requirements, and site visits.

Anna Tytula, the company's business development executive for the region, commented: "Opening an office in Eastern Europe seemed an obvious way to manage the growing number of multinational projects in which Elfab is involved." [www.elfab.com](http://www.elfab.com)
