

EXPOSOLIDOS Portugal

PROFEI SL, which organises the successful triennial Spanish EXPOSOLIDOS bulk solids handling and processing event in Barcelona, has decided to launch a similar trade fair in Portugal. The first edition of EXPOSOLIDOS Portugal is scheduled to take place 14-16 April 2011 at Lisbon's International Fair (FIL), which is said to be the country's best exhibition venue. Commercial manager Ferran Simón explained that many EXPOSOLIDOS exhibitors were interested in establishing stronger ties with the Portuguese market and PROFEI, which has a Portuguese subsidiary, had previous experience of organising events in that country. EXPOSOLIDOS Portugal has the backing of AIP, the Portuguese Industrial Association. The next Spanish EXPOSOLIDOS takes place in November 2012 at its usual Barcelona venue.
