

## ***Gericke celebrates 115<sup>th</sup> anniversary***

Gericke AG, the leading global supplier of powder handling and processing equipment, this year commemorates its 115<sup>th</sup> year of successful trading. Founded in 1894 by Walter H Gericke in Zurich, Switzerland, the company initially focused on the flour milling sector. It currently offers a wide range of products including pneumatic conveying systems, feeders, mixers, sifters and size reduction equipment as well as turnkey engineering capability serving food, pharmaceutical, chemical and related industries. The most recently launched equipment ranges incorporate state-of-the-art technology combined with quick and easy cleaning features. The Gericke Group, which now includes subsidiaries in Europe, Asia and Latin America, is headed by fourth-generation Markus H Gericke. [www.gericke.net](http://www.gericke.net)
