

Hardy Instruments teams up with Schneider Electric

At the beginning of September Hardy Instruments, San Diego, CA, announced that it had entered into a strategic partnership with Schneider Electric as a member of its collaborative automation partner programme. Hardy will support Schneider worldwide with precision weighing and process instrumentation technology, including the capability of seamlessly integrating process weight signals into a plant control system. Schneider Electric, a global specialist in energy management with operations in more than 100 countries, has 100,000-plus employees and last year achieved sales of 15.8 billion euros. In Europe Hardy Instruments is represented by B+L Industrial Measurements, Heidelberg, Germany.
