

Laboratory instrument manufacturer passes financial health check at highest level

Fritsch Milling and Sizing, Idar-Oberstein, Germany, a leading international manufacturer of sample preparation and particle sizing equipment, has been awarded the CreditCheck Top Rating-Certificate 2011 from independent rating agency Hoppenstedt Kreditinformationen. In gaining this certification it joins an exclusive group, encompassing all branches of industry, which comprises just 3.3 per cent of all German companies to have attained a

credit index of "1". Hoppenstedt has evaluated four and a half million German companies in terms of credit-worthiness and payment behaviour on a 1-6 scale, "1" being the best result obtainable. A Fritsch spokesperson explained that the Hoppenstedt CreditCheck Top Rating award was widely respected as a reliable indicator of a firm's financial health and probity. Especially in economically difficult times, it conveyed positive signals to customers, business partners, suppliers and financial institutions. www.fritsch.de
