

K-Tron reorganises sales management structure

Last week Niederlenz-based K-Tron (Switzerland) Ltd announced two key promotions within the senior management of K-Tron Process Group's global sales and marketing divisions. Robert M Barnett has been promoted to vice president of global marketing, while Richard J Poole becomes vice president of global sales, the position previously held by Mr Barnett together with global marketing. The appointments take place with immediate effect and both men will be reporting directly to Kevin Bowen, president of K-Tron Process Group. These changes in responsibilities reflect the need for K-Tron to increase and strengthen its sales and marketing activities in order to continue to maintain strong growth as a systems specialist. www.ktronprocessgroup.com
