

## ***Extended range of automatic open-mouth bag placers***

Payper, Lleida, Spain, has been manufacturing its CSA range of open-mouth bag placers for 25 years, during which time more than 450 systems have been installed worldwide. The company has now launched the CSA IF which offers a number of technical innovations.

These include reduced noise output, totally enclosed processing from filling through to bag evacuation, and throughout the filling/closing cycle each bag is mechanically gripped. Capacities up to 1600 bags/hour can be attained. The first of these machines was installed in Galicia, Spain, to fill milk powder into 25kg bags for the French company Euroserum.
