

Radar level transmitter now with Foundation Fieldbus

Siemens Industry Automation Division, Nuremberg, Germany, has added Foundation Fieldbus certified communications to its Sitrans LR250 radar level transmitter. The unit comes complete with enhanced EDD (Electronic Device Description) and is equipped with a Quick Start Wizard for fast commissioning. It is said to be the easiest to install and quickest to configure radar transmitter currently available. For commissioning via hand-held devices, basic EDD is also supported. Sitrans LR250 is also available with either Hart or Profibus PA communications. www.siemens.com/sitranslr250
